

Benedikt Jahnel TRIO: Techrider

Please note: If the band is on tour in Germany they might travel with equipment. Please call to verify: 0179-5332256

PA:

A professional PA system suitable for the room with engineer.

Monitoring:

Three monitors with three separately adjustable monitor ways will be needed.

1. Pianist:

- 1 grand piano well tuned! As long as possible.
- Tuning: The piano does not need to be tuned to a certain frequency (i.e. 440, 442 ...), rather it has to be tuned so it holds the tuning as long as possible
- 2 high quality* microphones (if possible U87 or TLM 170 or TLM 103)
- 1 monitor
- 1 Announcement microphone with stand

**The optimal microphoning depends very much on the room. The pianist has made bad experiences with Boundary-microphones (but even those are in rare situations the best choice). Generally the pianist will need two microphones. Big-membrane sounds often nice but also small-membrane.*

2. Double-Bassist:

- 1 stuhl
- 1 high quality 4 string acoustic Jazz-double bass (size: 3/4) with pickup, String length: 105cm. aprox.
- String height at the end of the finger board between 6-10mm
- 1 bass amplifier. Speakers: 1x10", 1x12" or 1x15". Brands: Ampeg, Hartke, Gallien Krueger, EBS, SWR or Mark Bass.
- 1 condenser mic for the instrument (not for the amplifier). Ex. DPA 4099 or similar.
- 1 monitor
- 1 music stand with light
- Distributor socket near the bass-Amp

3. Drummer:

- 1 high quality Jazz-drum set best would be an old Gretsch, Premier, Yamaha or Sonor (The drummer will not use a Pearl Export)
- Drum set details:
 - Bass drum: 18" or 16" not muffled!! (no blanket, pillow, foamed material, etc.)
 - 2 toms: 12" tom and 14" floor tom (floor tom not bigger than 14!)
 - snare 14"
 - Complete hardware with 3 cymbal stands (with gallows) and a drum stool, hi-hat stand, snare stand, foot pedal,
 - 1 Chair or small low table for percussions
 - 1 drum carpet
 - Coats: if possible not new! "white coated" if possible Remo Ambassador
- Depending on the room, it can be nice with only 2 overheads (Schoeps MK4 / KM184). In a bigger room additional:
 - 1 bass drum Mic
 - 1 Snare Mic
 - 1 Rack Tom Mic
 - 1 Floortom Mic
- 1 monitor
- 1 music stand with light
